Projects

E-commerce store (ai-shoe tryon)

- A responsive e-commerce store using React and Node.js, featuring Stripe integration for secure payments.
- The store offers seamless navigation, a user-friendly interface, and efficient product management.
- The project aims to deliver a secure, engaging online shopping experience and a easy way to try on shoes from the comfort of your home by integrating DeepAr.

My-Blog

- A responsive blog page using React to provide a seamless user experience with authentication.
- The design focuses on clean aesthetics, intuitive navigation, and mobile compatibility.
- The project aims to deliver a interactive blogging environment where a user can edit create or delete a post and upload images.

Portfolio website

- A portfolio website crafted using Three.js and React features an immersive and interactive 3D experience that showcases the creator's work and skills. Utilizing Three.js,
- the site incorporates dynamic 3D objects and animations, providing a visually engaging environment. React facilitates a smooth, responsive user interface, ensuring seamless
- navigation and interaction.

Experience

Flib
May 2024 - Present

Full Stack Developer Intern

- Built flib's website from scratch, focusing on user experience and responsiveness. Worked
- closely with the design team to translate their concepts into a functional site.
- Integrated Firebase to streamline the orders gateway for real-time data and management.
- Coordinated project timelines and stakeholder communications to ensure timely delivery.

CountryEdu Private Limited
June 2022 - July 2022

CSR Intern

- Successfully identified and fixed website problems, including broken links, typographical errors, and formatting issues.
- Worked as a productive team member to make company's website while also writing engaging content for various services offered by the company.
